KNOW THE WEATHER

By E. H. Sims

Is it true that clear weather frontal systems from the northwest bring with them a different smell (in the air)?

We commented once before that the air sometimes does smell differently. In the fall, when cooler, clear frontal systems often move in on us and produce football and hunting weather, people sometimes say they smell the odor of the north woods.

And that is possible. The air we have over us today was probably about six hundred miles to the west or northwest yesterday, and it may well have been over a fir tree forest or over the great forests of Canada, etc.

And it may have brought with it just a faint odor of these great forests.

HERE'S WHAT MAKES the CORVAIR REVOLUTIONARY

Short and sweet! Engine's in the rear—where it belongs in a compact car. With more weight on rear wheels, you get extra road-gripping traction for cornering and driving on ice, mud or snow. Also, by avoiding nose-heaviness of front-engine compact cars, Corvair handles easier, brakes better, rides smoother. Styling of both 4-door models is clean and uncluttered . . . as fresh and functional as modern architecture.

AIR COOLED

You never have to fuss with antifreeze. Turbo-Air 6 warms up quicker, with less wear on parts. Air-plane-type heater* goes to work almost instantly. *Optional at extra cost.

Revolutionary Rear Engine

works small miracles with mileage. It's the world's first production t with the ultra-smooth power of horizontally opposed pistons.

Unipack Power Team

Engine, transmission and drive gears are neatly wrapped in one lightweight package. Takes less space, leaves you more.

UNIBTRUT BODY BY FISHER

Body and frame are combined into a single rigidly constructed unit that reduces Corvair's weight, enlarges its passenger space.

Practically FLAT FLOOR

Corvair is America's only compact car with a virtually flat floor that gives you full 6-passenger comfort. For extra space, folding rear seat* converts easily to maximum room for 17.6 cu. ft. of cargo. *Optional at extra cost.

TRUNK'S UP FRONT

Lots of luggage space under the hood, where it's conveniently for groceries, packages.

NEARLY 3 FEET SHORTER

Corvair's almost 5 inches lower, 1,300 pounds lighter, too. Its compact size makes it a joy to jockey through traffic, a pleasure to park. No need for power assists.

4-Wheel Independent Suspension

Springs at each wheel cushion bumps independently of each other for a ride that rivals much costlier cars.

...and the most practical thing of all is Corvair's LOW PRICE!
